

## CONTRIBUTORS

Over 100 rangeland experts participated in one or more Sustainable Rangelands Roundtable meetings since April 2001. Over 40 of those participants have contributed to the First Approximation Report. This section lists the contributing authors of each chapter of the Report and the external reviewers for each chapter. The coordinator(s) of each chapter are designated in bold. Dr. Neil E. West of Utah State University and Dr. Jeffrey E. Herrick of the Agricultural Research Service's Jornada Experimental Range provided overall reviews of the Report, as well as specific reviews for Chapters I and VII.
